Describe the proposed project/work to be performed: \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

**\*\*\* Failure to submit the proper drawings may result in "Rejected" documents and delay in the permit process\*\*\***

Drawings will be required prior to issuance of permit. Professional drawings complete with a PA Licensed Architect or Engineer seal are only required when the project scope extends beyond the International Residential Code. Depending on the nature of the project, the following table describes what must be included on the drawings:

Type of Drawing	Items to be included on Drawing
Site Plan	Structure location on property and distance to other buildings, lot lines, utilities, steep banks, roads, rights of way, etc.
Foundation	Type and size of all footings, walls, slabs, drainage, etc. NOTE: Footing depth from finished grade to bottom of footing shall be 54".
Floor Plan (All Levels)	Must include all levels – Finished and Unfinished. Include bedrooms, kitchen, bathrooms, windows, doors, decks, etc.
Framing	Size, length and spacing of studs, joists, rafters, sheeting, beams and headers of all levels. NOTE: All framing lumber must be graded except for projects that do not require a UCC permit. Floor, wall and roof sheeting does not have to be graded.
Electrical	Include every circuit location with receptacles, lighting, smoke detectors and service and wire sizes and types. Indicate Ground Fault Circuit Interrupters and ARC-Fault for bedrooms.
Plumbing	Include location of all fixtures, drains, supplies and vent pipe size, type and length.
Mechanical	Include location and type of water heaters, heating and cooling systems and ventilation.
Energy	Include type of insulation and R-value for ceiling, all walls including basement and slab, if needed.

**PERMIT APPLICATION**

**FLOOD PLAIN**

Is the site located within an identified flood hazard area? (Check One)  YES  NO

Will any portion of the flood hazard area be developed? (Check One)  YES  NO  N/A

Owner/Agent shall verify that any proposed construction and/or development activity complies with the Requirements of the National Flood Insurance Program and the Pennsylvania Flood Plain Management Act (act 166-1978), specifically *Section 60.3*

**SURVEYORS CERTIFICATE ON ELEVATION** \_\_\_\_\_ Lowest Floor Level: \_\_\_\_\_

## APPLICANT'S CERTIFICATION

The applicant certifies that all information on this application is correct and the work will be completed in accordance with the "approved" construction and PA Act 45 (Uniform Construction Code) and any additional approved building code requirements adopted by the Municipality. The property owner and applicant assumes the responsibility of locating all property lines, setback lines, easements, rights-of-way, flood areas, etc. Issuance of a permit and approval of construction documents shall not be construed as authority to violate, cancel or set aside any provisions of the codes or ordinances of the Municipality or any other governing body. The applicant certifies he/she understands all the applicable codes, ordinances and regulations.

Application for a permit shall be made by **ALL OWNERS** or lessees of the building or structure, or *agent* of either, or by the *registered design professional* employed in connection with the proposed work. (Continue signatures on a separate page if necessary)

I certify that the code administrator or the code administrator's authorized representative shall have the authority to enter areas covered by such permit at any reasonable hour to enforce the provisions of the code(s) applicable to such permit.

# PLOT PLAN

1. This page shall be used for the drawing of a site plan for all major construction and in such other cases as the Building Inspector deems necessary,
2. The site plan shall show the location and size of the lot, locations and sizes of the buildings and structures upon the premises (both existing and proposed and their relationship to adjoining premises and public roads.
3. Locate and label clearly and distinctly all buildings and structures, show widths and depths of all yards, show names of all roads and indicate north with a north arrow.
4. If the principal building or structure is to be served by an on-site sewage disposal system a sketch of the system shall be shown.
5. Show location and layout of off-street parking and/or loading and report number of spaces.
6. Attach a location map.

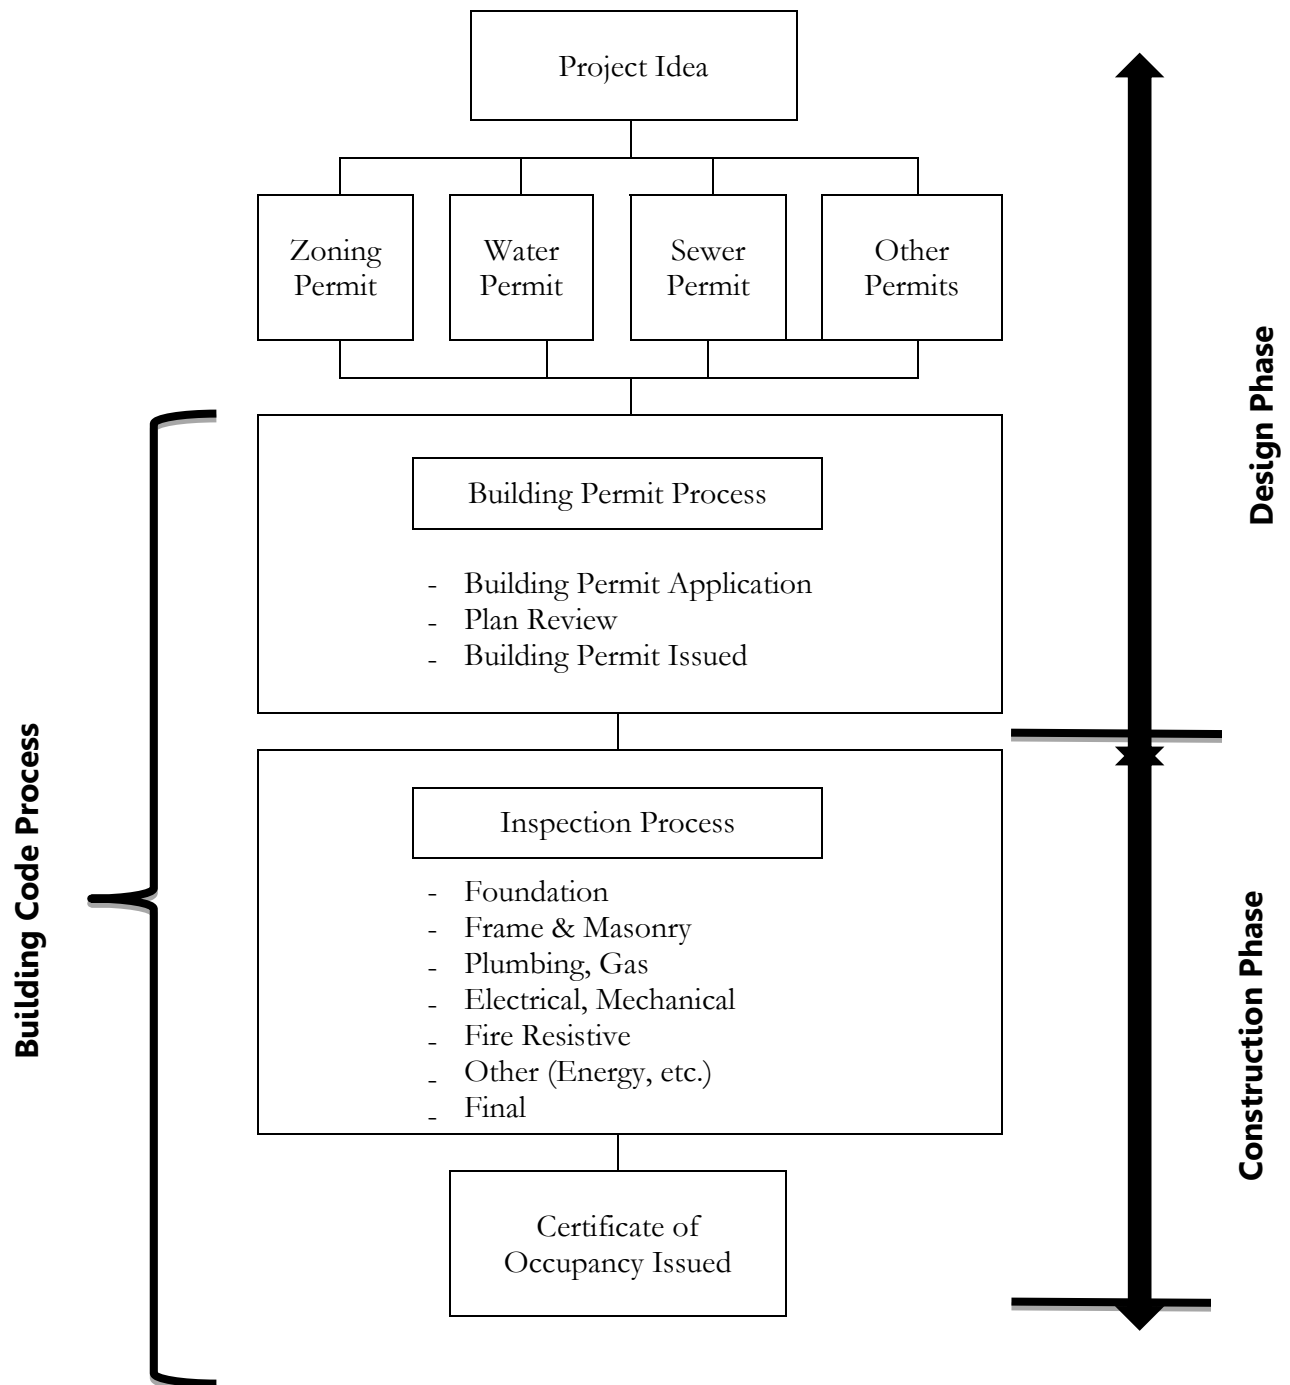

Locate all structures with a solid line.  
 Locate proposed structures with a broken line.

**HOMEOWNER'S WORKERS' COMPENSATION AFFIDAVIT**

I, \_\_\_\_\_do solemnly swear that I will not employ/hire any other persons for the project for which I am seeking a building permit.

After receipt of the building permit if I employ any other persons I must notify the Borough Office and provide proof of workers' compensation coverage within three (3) working days.

I understand that failure to comply will result in a stop-work order and that such may not be lifted until proper coverage is obtained, as provided by Section 302 (e) (4) of the Act of June 2, 1915 (P.L. 736), known as the Workmen's Compensation Act, reenacted and amended June 21, 1939 and amended December 5, 1974 and amended July 2, 1993. (Act 44).

## Submittal Guide for Commercial Projects

### Building Plan Requirements for Commercial Projects

The following items are required for new commercial projects. Drawings should be drawn to 1/4" or 1/8" scale and shall provide the necessary information to verify compliance with the building code. **All drawings shall bear the stamp and signature of the design professional responsible for the design.**

**Two (2) sets of construction drawings shall be submitted and shall include:**

**Title Page Drawing;** to include the contact information for all design professionals, description of square footage per floor, number of floors, type of construction to be utilized, area modifications utilized, use group classification(s), separation or non-separation of mixed use groups, design occupant load(s), finish materials classification, design codes utilized.

**Site Plan Drawings;** to include all utility layouts, handicap parking & access, designated fire lanes, distance between adjacent structures and property lines.

**Floor Plan Drawings;** to include the use of all areas, location & types of fire resistant construction, U.L. Listing of fire resistant construction, means of egress components, handicap access.

**Structural Drawings;** to include the structural design calculations, geo-technical engineering report, uniform live loads, dead loads, roof & snow loads, wind loads, footing construction detail, foundation construction details, framing construction details, concrete construction details, masonry construction details, steel construction details.

**Electrical Drawings;** to include all lighting facilities, electrically operated equipment, and electrical circuits required for all service equipment of the building or structure. Drawings should include panel schedules, grounding systems, and wiring methods.

**Mechanical Drawings;** to include size & type of appliances, construction of flues and chimney systems, ventilation air provided, fresh air make-up provided, location of all ducting and piping.

**Plumbing Drawings;** to include a plan view and a riser diagram of waste & water piping, pipe sizing, grade of piping, drainage fixture unit loads on stacks and drains, water distribution design criteria.

**Fire Protection Systems;** to include the submittal guide for each type of system. See specific submittal guide requirements.
